

# Seminar on Dangerous Ideas

Leslie Kaelbling

Wed. 11/28 1pm 8ai

Logic is crucial to embedded A.I.

The nouvelle-AI revolution bounced research out of a space of esoteric puzzles into learning low-level, insectlike skills. But the target is in between, in understanding and manipulating a rich and structured world. To represent and reason about that world, we need logic!

Snacks and Refreshments Will Be Served! (Really!)
